Objective

I am a recent BCA graduate with a solid grasp of computer applications and a passion for understanding projects from both client and business viewpoints. I exhibit strong multitasking abilities and attention to detail, fostered through academic projects and coursework. Open-minded and adaptable, I am seeking opportunities to apply my knowledge and further develop my skills in a real-world setting. I am eager to find challenging opportunities where I can fully utilize my skills for the success of the organization.

Education

- **Shri Shiv Chhatrapati primary,higher and higher secondary school** 2019
  SSC
  80.40

- **Navin higher secondary College** 2021
  HSC
  75

- **GH Raisoni college of arts,commerce and science** 2024
  Bachelor Of Business Administration (Computer Application)
  9.00 CGPA

Experience

- **Data entry operator (SAP, EXCEL)**
  I worked as a Data Entry Operator at Daikin Warehouse, where I was responsible for creating invoices and e-way bills. Additionally, I prepared sales reports and e-way bill reports to ensure smooth information gathering and efficient operations.

- **Quality Inspector (6 months)**
  I worked as a Quality Inspector at Rajshree Panel Manufacturing, a company specializing in panel manufacturing. My responsibilities included preparing quality reports for control panels and ensuring compliance with industry standards. Additionally, I was responsible for resolving customer issues in cases where defective products were dispatched, ensuring prompt corrective actions to maintain quality and customer satisfaction.

- **Web development intern**
  Completed an internship at Collin IT Solutions, where I developed websites using HTML, CSS, and JavaScript. Contributed to projects such as v-energia.co.in , gaining hands-on experience in front-end web development.

Projects

- **Fees management system**
  - A Fees Management System is a software solution that is designed to help educational institution manage their financial transactions. It provides a centralized platform for institutions to manage fees payments, generate receipts, track student fee balances, and generate financial reports.
  - The Fees Management System is typically a web-based application that can be accessed from any device with an internet connection. It comprises various modules that handle different aspects of the financial management process. These modules may include student registration, fee collection, fee balances, Receipt generation, and reporting.
  - The system is designed to be user-friendly, with an intuitive interface that requires minimal training forusers. It is also scalable and flexible, allowing institutions to handle an increasing number of students and financial transactions as they grow.

Skills

- Ms Office, Ms excel, Mail
